Artlantis export version: 13.1.2

- 1- Introduction**
- 2- Plug component and installation instructions**
- 3- Launch VectorWorks**
- 4- Limitations and warnings**
- 5- Fixed issues**
- 6- More information about Artlantis**

1- Introduction

Artlantis plug 13.1.2 exports in .atl file format as well for Artlantis R 1.2 and Studio 1.2 than for Artlantis Render 2.0 and Studio 2.0
Minimum required: VectorWorks 2008 and Artlantis R 1.2, Studio 1.2 or Artlantis Render 2.0, Studio 2.0

NB: The.atl files saved in Artlantis Render 2.0 or Studio 2.0 will not get open with Artlantis R 1.2 or Studio 1.2

2- Plug component and installation instructions

Mac platform:

Component:

One folder: « **Art-lantis Export** »

Installation:

Put « **Art-lantis Export** » folder into the **Plug-Ins*** folder of VectorWorks.

* Important:

- 1- The « **Art-lantis Export** » folder **must** be placed in the « **Plug-Ins** » folder.
- 2- Copy integrally « **Art-lantis Export** » folder. Do not copy the elements separately.
- 3- Do not keep or rename an old « **Art-lantis Export** » folder.

Windows platform:

Component:

One folder: « **Art-lantis Export** »

Installation:

Put « **Art-lantis Export** » folder into the **Plug-Ins*** folder of VectorWorks.

* Important:

- 1- The « **Art-lantis Export** » folder **must** be placed in the « **Plug-Ins** » folder.
- 2- Copy integrally « **Art-lantis Export** » folder. Do not copy the elements separately.
- 3- Do not keep or rename an old « **Art-lantis Export** » folder.

3- Launch VectorWorks

Plug-in activation:

Menu **Tools** > **Workspaces** choose **Workspace Editor**.

Choose one of the 3 options proposed.

Example: "Edit the current workspace". The Workspace Editor dialog box is displayed. The left column displays the list of commands, the right column the menus.

In the right column click on the arrow to display the contents of the Files > Export menu

- In the left column: click on the arrow to display the content of "**Import/Export**".
- Drag the "**Artlantis Export**" item to the right column into the "**Export**" item. Click on « OK » to validate and close the window. Check the availability of the export into the Files>Export menu.

4- Limitations and warnings

Please do not use older plug-ins with VectorWorks 12.5.x as they are not compatible. They might interfere with the new plug-in.

5- Fixed issues

v14.0.7 January 6th 2009:

- a color popup not refreshed in the dialog when entering a name.
- an problem when updating a file could lead to create materials without names._
