THE POWER OF PREVIZ

Vision is a leading previz software available for both PC and Mac operating systems. It gives you the power to previsualize and cue your show and empowers you to design creatively and efficiently.

FROM CONCEPT TO PREVIZ TO

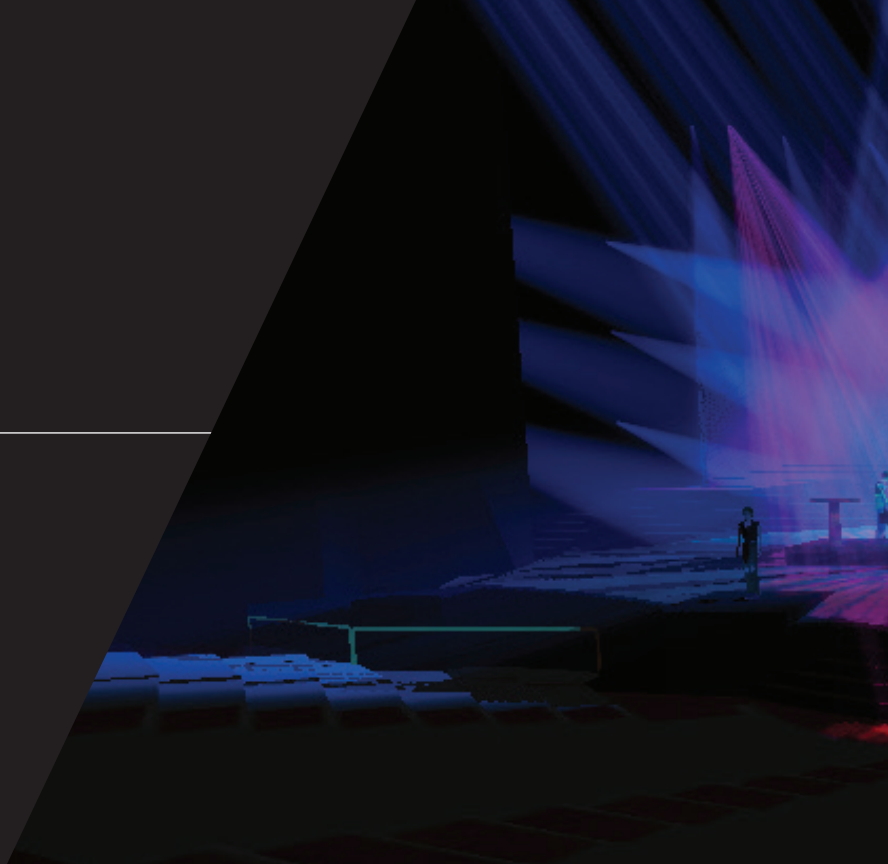
FINAL EXPERIENCE

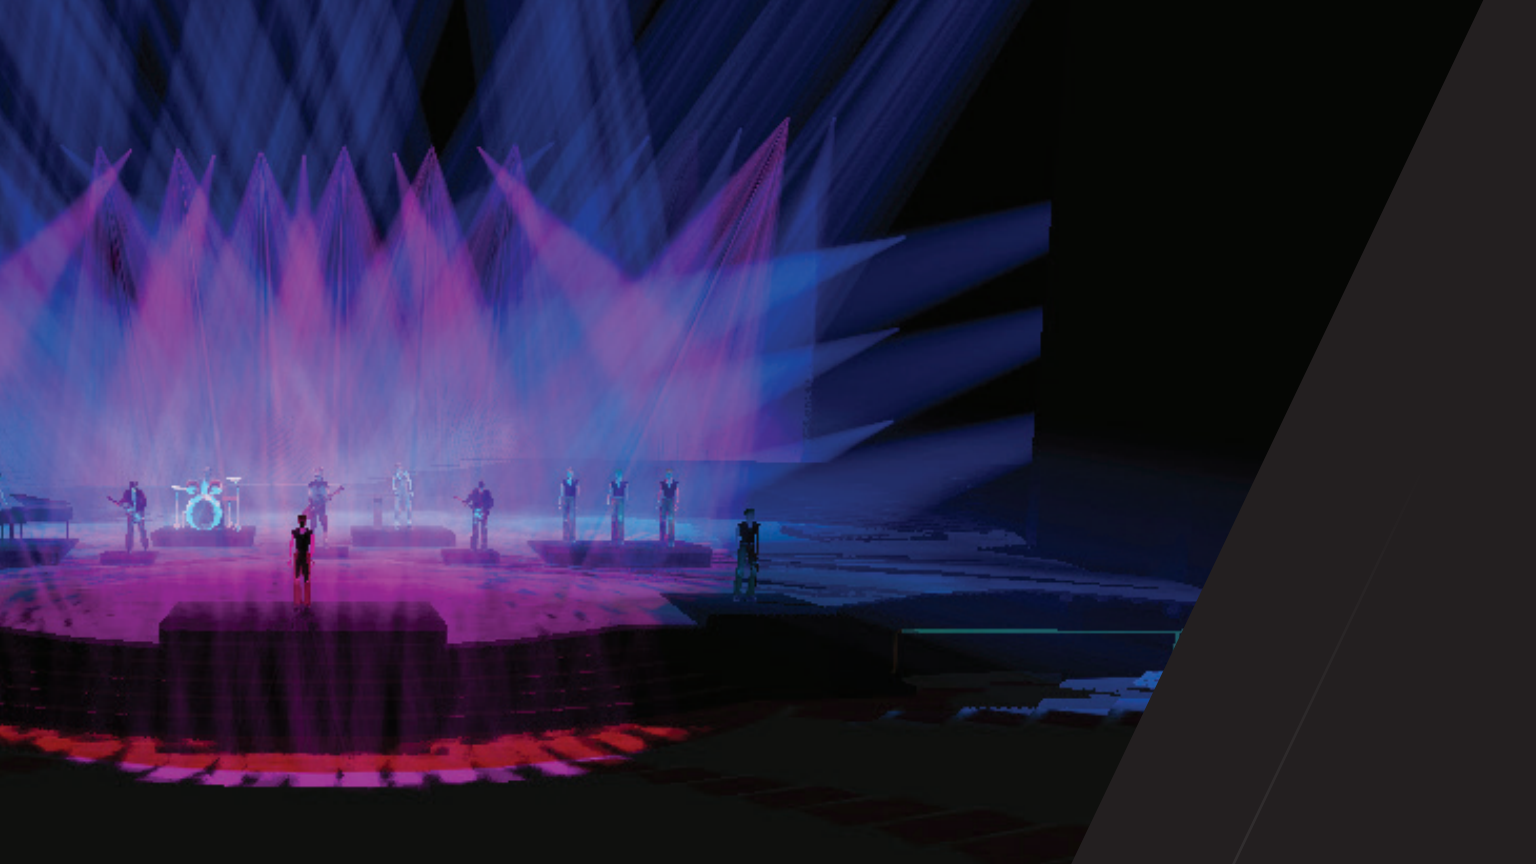
With improved integration between Vectorworks Spotlight and Vision, you can create design documents, automate paperwork, and visualize your design in rendered 3D views. When you're done, easily send fixture, focus data, and model information directly to Vision to previz, program, and cue your show.

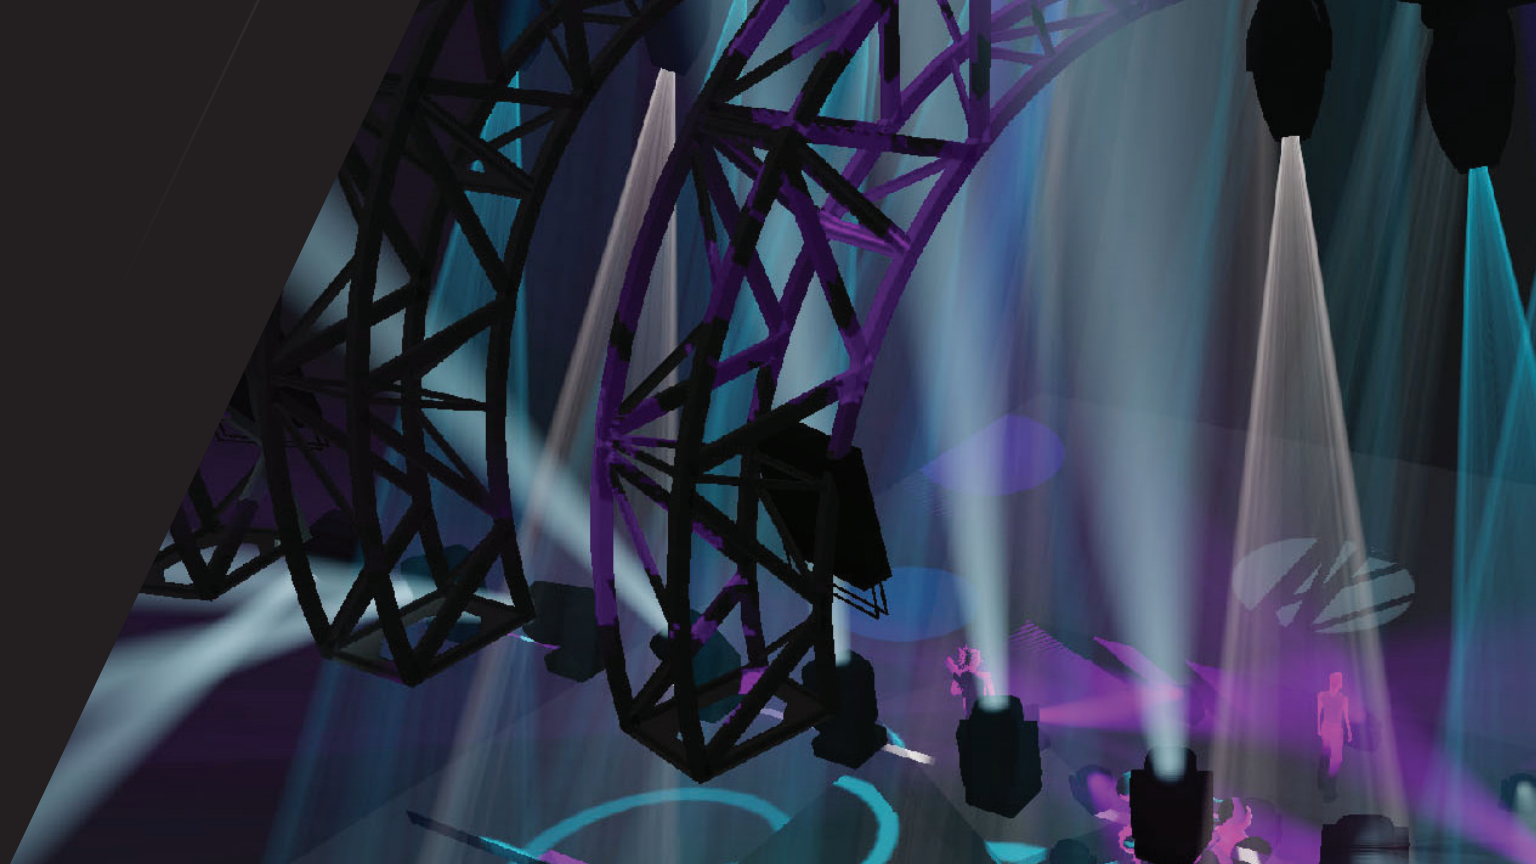
DESIGN SMARTER

SAVE MONEY

Entertainment design and production professionals save time and money when using Vision software. You can now previsualize what your rig can do without traveling to the venue or having your crew stand by.







SAVE
TIME

Vision allows you to move light fixtures and communicate with all DMX consoles. Experiment with looks and cues, and review options with your clients and collaborators to get their approval before you load in.

COMPREHENSIVE

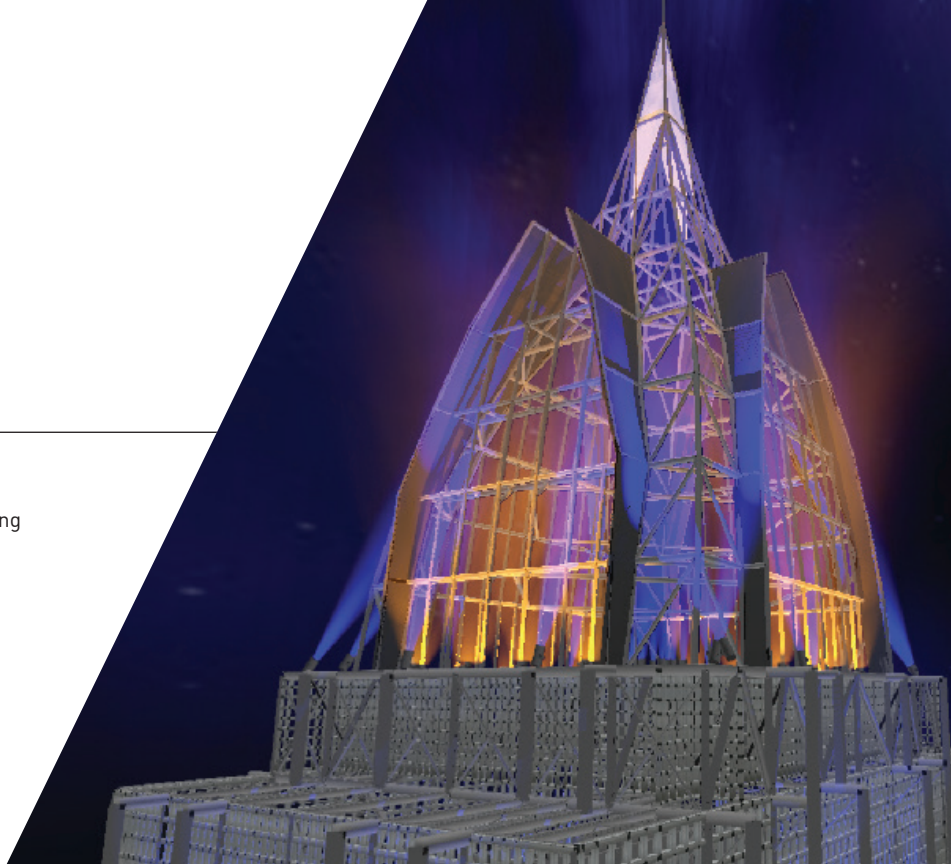
FIXTURES

Vision features comprehensive fixture libraries that equip entertainment design and production professionals to work more effectively than ever with verified data for each feature.

LIGHT ANY

VENUE

Once the model is complete, control your lighting fixtures in the Vision scene window, so you can pre-cue your entire concert, tradeshow, broadcast, corporate, or theater event.



Every day, entertainment design and production professionals choose Vectorworks Spotlight and Vision because we deliver a cohesive solution that supports the entire design process from first inspiration to final performance. With Spotlight and Vision, you can design, previsualize, and effectively manage your time and money — all while maintaining your creative edge.

VECTORWORKS® SPOTLIGHT VISION

ABOUT VECTORWORKS

Vectorworks cares about design. Since 1985, we have served the architecture, landscape, and entertainment industries, drawing inspiration from the world around us and encouraging the more than 650,000 designers who use our software to create experiences that transform the world.

Our commitment to develop the world's best cross-platform design software has taught us a simple truth: great design begins with the inspiration of the designer. Vectorworks supports that inspiration by guiding the exploration of discovery and finding creative solutions. We provide powerful tools to help designers capture ideas, nurture innovation, communicate effectively, and realize their vision.
