

Vectorworks® Fundamentals software gives you the freedom to design in your own way. With a streamlined set of tools, you can capture and develop your ideas all in one place. Intuitive, 2D/3D modeling capabilities, combined with best-in-industry, integrated rendering tools, will transform your design process and help you produce beautiful drawings and high-quality, professional documentation with ease.

 $\label{thm:condition} \mbox{Explore what you can do with Vectorworks Fundamentals.}$

SIMPLIFY YOUR WORKFLOWS

Vectorworks Fundamentals gives you a robust suite of resources to optimize your workflows. Whether you're drafting or preparing to share a model with your project team, Vectorworks software offers features and tools that are designed with you and your workflows in mind.

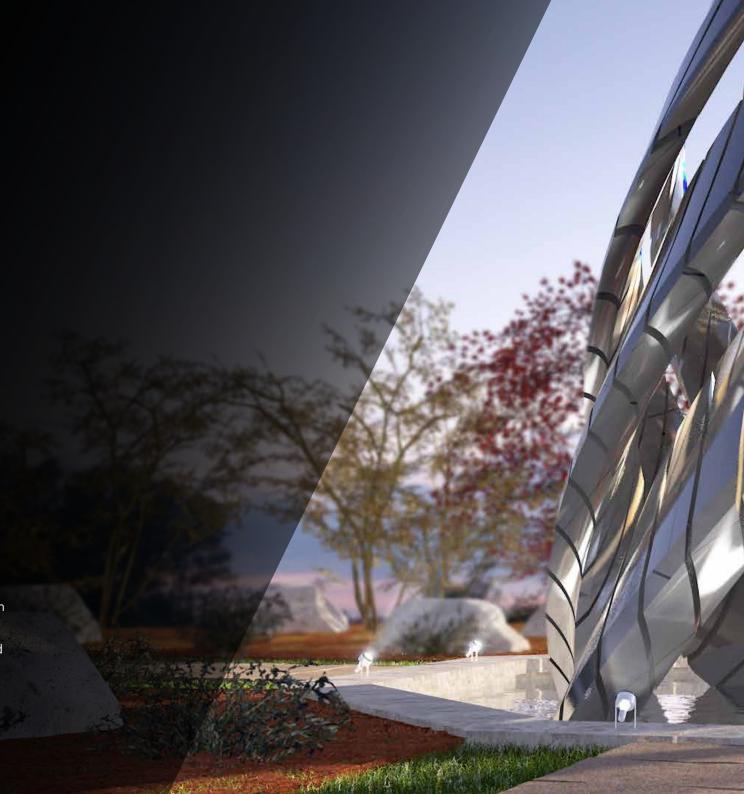

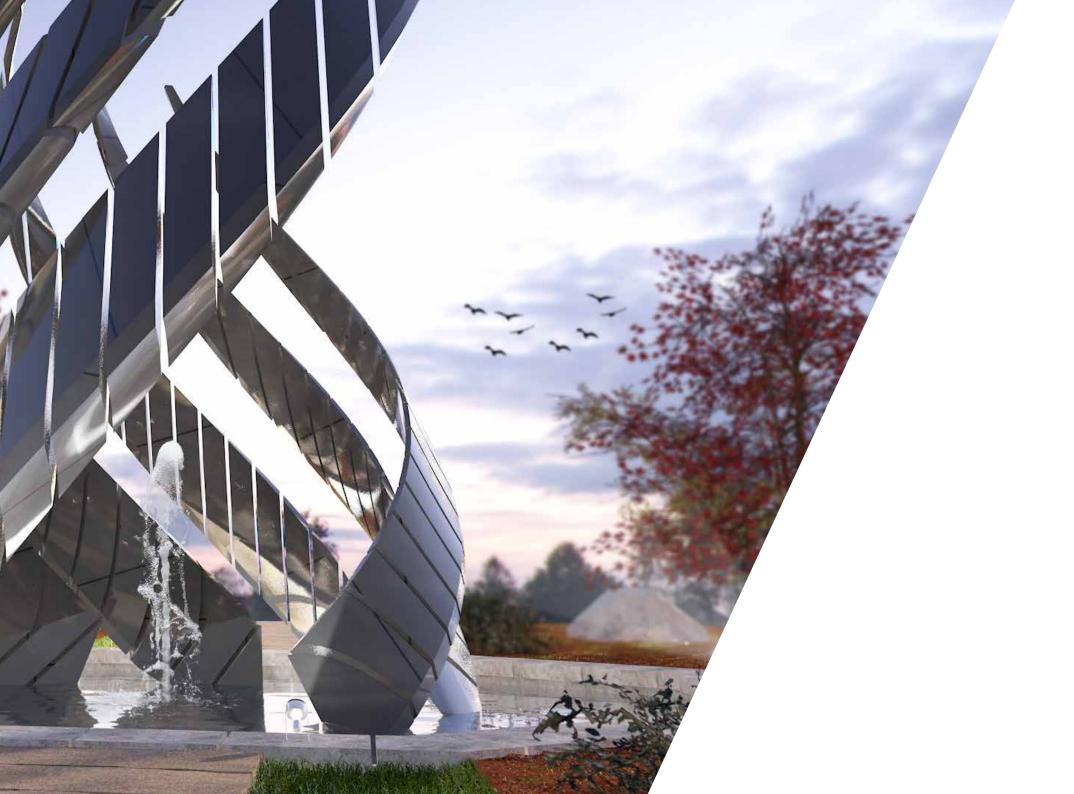

MODELING SOLUTIONS

Design without limitations. Vectorworks
Fundamentals provides an advanced suite of
Parasolid-based solids and NURBS surface
tools that let you create any shape and
easily explore geometry. Push, pull, blend,
twist, sculpt, deform, or punch holes.

Fundamentals also features SmartCursor™ technology that gives you hints to design more accurately. Subdivision modeling tools can transform primitive shapes into smooth, malleable surfaces so you can craft sculpted objects, custom furniture, and more. With our software, you can create any form.

DRAFTING TOOLS

Do what you do best — design. Fundamentals' customizable interface and intuitive display make it easier to learn and use than other design applications. Our software enhances the design process, delivering intuitive drafting tools that empower you to keep your creative edge.

SUPERIOR 2D **DOCUMENTATION**

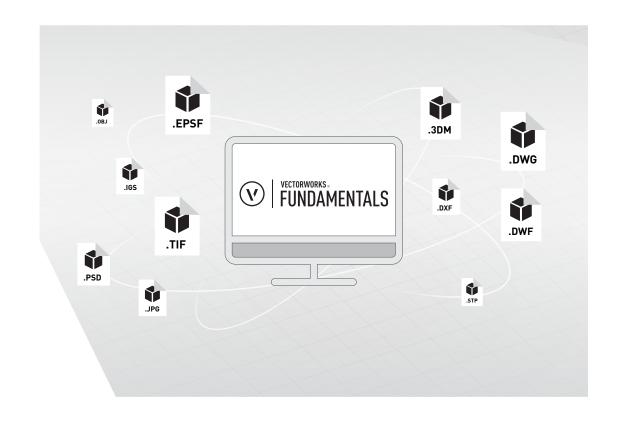

Our streamlined drafting environment includes a suite of drawing and editing tools that make quick work of any type of project. Explore parametric constraints that maintain relationships between 2D objects.

Use a full spectrum of dimensioning tools that support common standards. Take advantage of text and notation capabilities that make your drawings even more powerful. For your finishing touches, stylize the text with a choice of fonts and sizes, check your spelling, and extrude text into 3D.

SEAMLESS INTEROPERABILITY

Exchange NURBS models with Rhino software or concept models with a variety of modeling software packages. Support of both import and export of OBJ and STL file formats lets you explore the full range of design options by incorporating information from multiple sources, making sweeping changes quickly and easily.

Using several other common file formats, you can communicate effectively with your consultants and collaborators who may be using other CAD software. Vectorworks Fundamentals offers support for exchanging 3D models and drawings using DWG, DXF, DWF, C4D, and STL.

VECTORWORKS FUNDMENTALS FILE IMPORT/EXPORT CAPABILITIES

SHARE YOUR VISION

With the latest MAXON CineRender engine, rendered panoramas, high-quality shaders, and single-click model export for web viewing, Vectorworks Fundamentals offers a suite of cutting-edge capabilities to create experiences for your clients that help you win more business.

CLOUD SERVICES

Vectorworks is committed to communication and collaboration. With Vectorworks Fundamentals, our Cloud Services environment is openly available to everyone, giving you the ability to easily share files between team members and providing a simple interface for collaborators and clients to tour your models using our mobile app, Vectorworks Nomad. You can also use Cloud Services with Google DriveTM and Dropbox.

oun'

ENDLESS IMAGES

Make your work even more compelling and easier to communicate with digital imagery. Import scans, digital photos, or web images. Import or export a wide array of image files, including Illustrator® EPS and native Photoshop® PSD files. Also, export your design for inclusion in your firm's marketing materials or website.

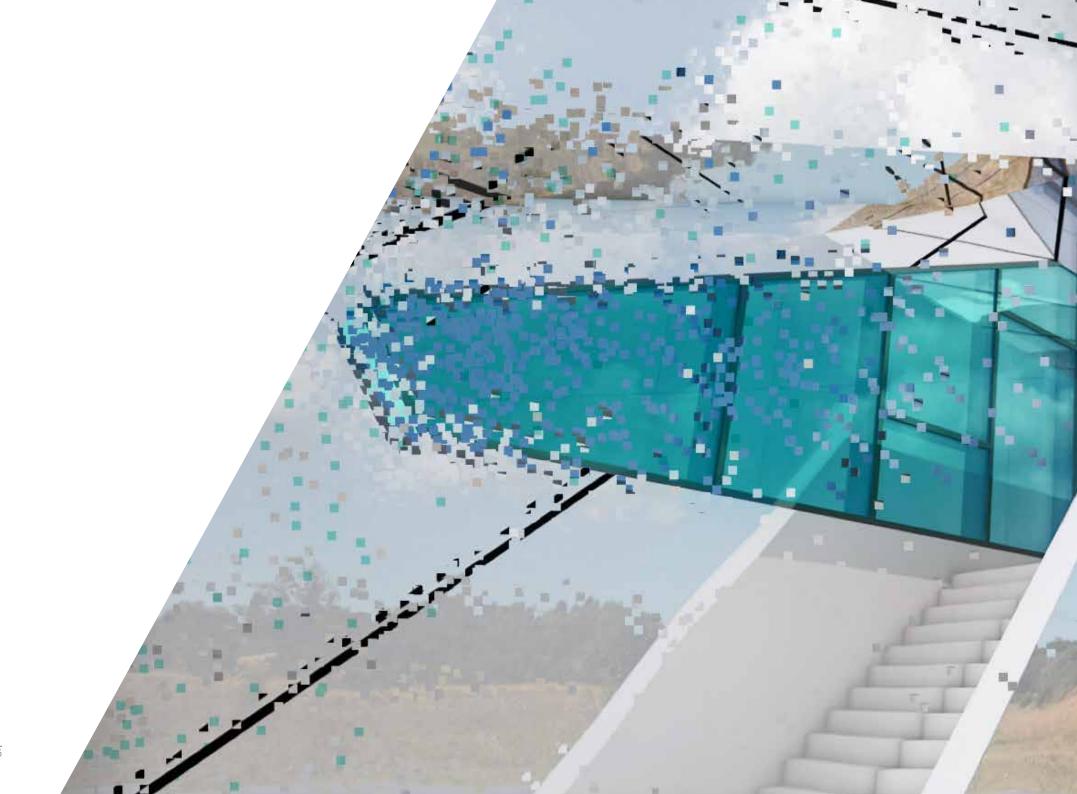

IMPRESS YOUR CLIENTS

With stunning, photorealistic renderings, designers can showcase material selection options, make effective lighting decisions, and generate high-quality documentation and presentation boards. With Vectorworks Fundamentals, you have all the tools necessary to wow your clients.

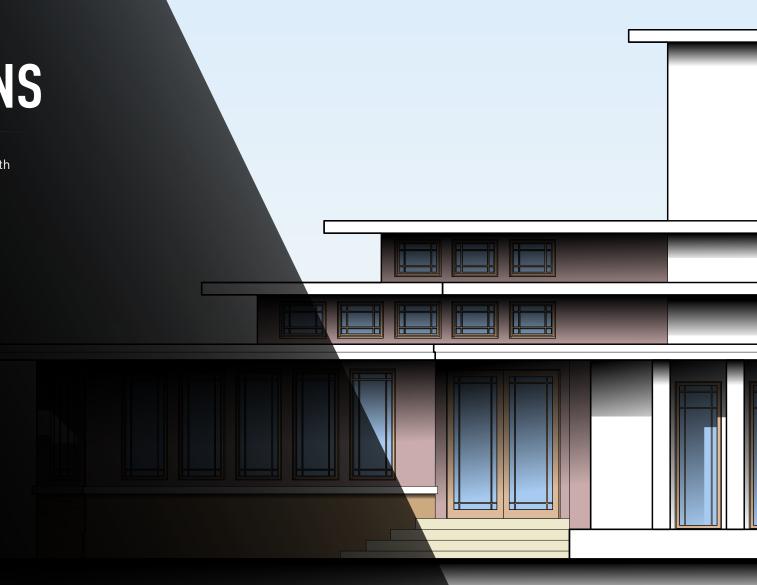

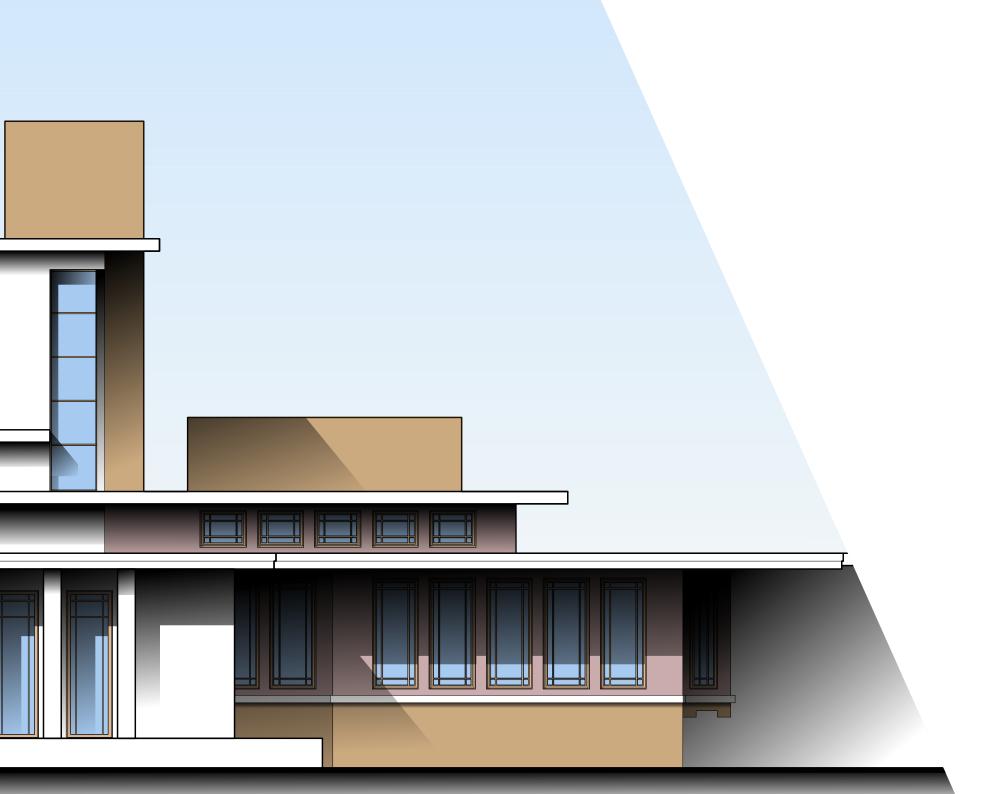

INTEGRATED RENDERING

Vectorworks Fundamentals includes Renderworks®, the best-in-industry rendering feature set built on MAXON's CineRender engine. Renderworks provides the tools necessary to visualize your work throughout the design process while producing clear and accurate illustrations.

PRESENTATIONS

Vectorworks Fundamentals provides designers with a comprehensive "what you see is what you get" suite of design tools built to create the industry's best 2D presentations. Fine-tune line weights, adjust color opacity, and add drop shadows to produce stunning presentations — all from within Vectorworks Fundamentals' intuitive interface.

SYSTEM **RECOMMENDATIONS**

Performance of Vectorworks may vary depending on several factors, including hardware configurations and project types. To get a full list of minimum system requirements and recommended hardware profiles, please visit **vectorworks.net/sysreq/**

Mac OS 10.12 (Sierra)
Mac OS X 10.11 (El Capitan)
Mac OS X 10.10 (Yosemite)

Windows 10 64-bit Windows 8.1 64-bit Windows 8 64-bit Windows 7 SP1 64-bit

PROCESSOR

- (E) 64-bit Intel Core i5 (or AMD equivalent) or better
- (M) 64-bit Intel Core i5 (or AMD equivalent) clocked at 2GHz or better
- (H) 64-bit Intel Core i7 (or AMD equivalent) clocked at 3GHz or better

RAM

- **E**) 4GB or more
- (M) 8GB-16GB or more
- (\mathbf{H}) 16GB-32GB or more

GRAPHICS CARD

- (E) OpenGL 2.1 compatible graphics card with 1GB of VRAM or more
- (M) Dedicated OpenGL 2.1 compatible graphics card with <u>2GB-4GB of VRAM</u>
- (H) Dedicated OpenGL 2.1 compatible graphics card with 4GB of VRAM or more

SCREEN RESOLUTION

1920x1080 or higher recommended

NETWORK REQUIREMENTS FOR PROJECT SHARING

Project sharing requires high-speed network connections. As the network bandwidth increases, so does project sharing performance. Slower network speeds can still provide a satisfactory user experience if you minimize operations that transfer large amounts of data over the network (such as committing changes to the project file or refreshing a local working file).

Key:

- (E) Entry-level profile
- (M) Mid-level profile

(H) High-end profile

ABOUT **VECTORWORKS**

Vectorworks cares about design. Since 1985, we have served the architecture, landscape, and entertainment industries, drawing inspiration from the world around us and encouraging the more than 650,000 designers who use our software to create experiences that transform the world.

Our commitment to develop the world's best crossplatform design software has taught us a simple truth: great design begins with the inspiration of the designer. Vectorworks supports that inspiration by guiding the exploration of discovery and finding creative solutions. We provide powerful tools to help designers capture ideas, nurture innovation, communicate effectively, and realize their vision.
