

## The following issues have been fixed in Update3:

Issue id	Summary
VB-61526	(V1)Unable to Delete Vertex (2D reshape tool)
VB-94872	Dimension is not associative in some circumstances
VB-100017	Under certain circumstances a vertex of a polygon cannot delete
VB-113467	Callout Tool doesn't support plan rotation
VB-137686	Dimension get broken during reshaping
VB-137727	Not possible to create a dormer
VB-139106	Problem with Copy-Paste of text from TextEdit
VB-156334	Roof doesn't return to its previous Roof Edge Shape after undo
VB-170687	Spotlight MVR export not including GDTF fixture profiles in files created before SP3
VB-176116	Hoist labels don't use style class text settings.
VB-177246	Project Sharing - Export MVR... prompts to check out all items that are being exported
VB-182474	The cable doesn't create correctly in the test file
VB-185577	Vectorworks Import MVR missing Seating Section (both glTF & 3ds)
VB-185868	Fit Top of Space to Objects: unexpected result
VB-186031	Wheels tab of the GDTF fixture updater does not work
VB-190119	Delayed switch from Sheet Layer to Design Layer when DV on DL is active
VB-190580	Edit GDTF Data button does not work unless the GDTF file has been imported into Vectorworks
VB-190789	GDTF Filenames need to be sanitized to remove illegal filenames
VB-193294	'Use GDTF Geometry' on Lighting Device from GDTF-Share, Geometry (2D & 3D) disappears before saving & reopening
VB-193331	CW - Spotlight - Lighting Device - GDTF - Web Browser
VB-193721	MVR - No position exported for fixtures without a Lightng Position Object
VB-193876	the lighting fixture disappear if I select "use gdtf geometry"

VB-194400	Wallclosure failed with CornerWindow
VB-194569	Resource Manager No Browsing
VB-194782	Window Not Showing Correct Texture within Test File in VW2024
VB-195136	T02250 - Split tool should have plane options disabled
VB-195658	CW - Spotlight - Braceworks - Hoist will get deleted when inserting truss
VB-195733	About Installer: Layout collapse on "Choose Location" screen in unique environment.
VB-195860	Spotlight Equip Summary Key T02059 position summary not updating after build list edits.
VB-195885	Import DWG: exponent is cut off
VB-195906	*File crashes when changing font mapping
VB-195970	Laubwerk plants causing 3D geometry to disappear and reapper
VB-196171	Crash with ResourceManager
VB-196206	Import as symbol checkbox becomes grey when you close Advanced DXF/DWG Import Options dialog
VB-196232	Door offset insertion mode in rotated top plan missing swing indication
VB-196284	Inventory - shutdown crash
VB-196286	Resource Manager crash in analytics
VB-196326	Window insertion interactive mode in Multiview and rotate plan don't insert correctly
VB-196341	T02348 - Door tool offset mode, incorrect preview
VB-196652	T02059 - Clicking on source of equipment and then clicking off leaves it blank on Windows
VB-196762	Doors and Windows offset insertion mode preview in rotate plan is wrong
VB-196862	Spotlight Equip Summary Key T02059 build list allowing too many lighting PIOs
VB-197538	Changing X or Y rotation of multiple Lighting devices reverts Z rotation to 0degrees
VB-197874	2022 File crashing when opening in 2023 or 2024
VB-197996	Laubwerk sumboles sometimes give false representations
VB-198092	*Adding Base Accessories to Multi Circuit Instruments - Instant Crash
VB-198113	Height in Qto_WallBaseQuantities is missing
VB-198195	Laubwerk plants not behaving properly, sometime crashing the program.

VB-198246	T02059 - Source "Not Assigned" Does Not Auto Generate Once Dropdown is Opened - Windows ONLY
VB-198301	In the Callout's Leader Attributes setting, it is not possible to apply a line type whose name includes multi-byte characters (such as Japanese) to the Style.
VB-198323	Model gets "cut away" when a railing or flyover tool (or perhaps any other tool) is activated
VB-198457	Weird 3D graphics issues after inserting Laubwerk plant, like clip cube is on
VB-198564	Wrong Export DWG of Objects in Wall with Data Visualization
VB-198671	Round Wall Left Right Selection Backwards
VB-198727	Truss Magnets Ignoring Length Field In Truss Properties
VB-198738	T02345: Window Stool geometry not adjusting to jamb location in wall
VB-198761	T02350 - Settings Dialog Attributes List Requires Extra Clicks to Open Pop-Up Menus (Windows Only)
VB-198846	MVR - Custom lights are being exported with a 3ds model
VB-198847	Gobo images are not being exported to MVR
VB-198850	Localization_Laubwerk Plant accesses to English Laubwerk Plant Catalog page in recent VW versions.
VB-198862	GDTF - SVG files are not imported from the GDTF to create 2D geometry
VB-198863	MVR export does not export the color name used in a lighting device
VB-199155	Stair CW: 2D Austritt not in the Attributes for Gestemmte Treppe
VB-199217	Spotlight patch by selected command not working in attached file
VB-199220	DWG export creates 2D plants where none should be
VB-199229	Laubwerk Plants not useable
VB-199319	Stairs - railing type no preview
VB-199365	Datavisualisation in viewport style
VB-199391	T02455 - Duplicating Filter Name Overrides Original Filter
VB-199472	DXF/DWG Import: Purge unused Materials/Textures inconsistency
VB-199493	Offset Insertion Mode for Door not displaying correct during creation.
VB-199506	Push/Pull tool snaps to 0...
VB-199542	Equipment List and Inventory won't recognize certain items

VB-199569	Export DWG file crash
VB-199614	Laubwerk plants do not highlight upon selection
VB-199626	Plants are placed in relative to the Rotated Top/Plan view, making Tick marks not uniform for each plant
VB-199656	Clip Tool tooltip error
VB-199658	Changing X,Y, or Z rotation of Lighting Devices - Unexpected behaviour
VB-199708	*repeat trim tool causes crash
VB-199730	Spotlight Equip Summary Key T02059 allows duplicate items to be inserted
VB-199731	Spotlight Equip Summary Key T02059 sub total lands outside the key border
VB-199734	Spotlight Equip Summary Key T02059 opening the build list resets the box size to very wide
VB-199743	VW Crash on quit
VB-199793	Window Stool Overlapping Jamb
VB-199794	Spell check crash
VB-199827	TK BUG: Keeping z-heights for Site Modifiers, made with "Create objects from shapes" command
VB-199863	Reveal settings when it is chamfered is not correct with the 6cm
VB-199871	SBE: Interactive reshape: More weird behavior
VB-199877	Offsetting a window creates a gap between the interior sill and window
VB-199906	2D components of Symbol not showing in Interior Elevation
VB-199914	Structural Member Size Settings Fail to Get Grayed-Out in the OIP
VB-199917	Hoist Measurement Label jumping due to user origin
VB-199921	TBB: Re-creating a project issue history table on renamed sheet layer creates new sheet layer
VB-199935	Laubwerk plant selection indication is missing
VB-199944	Tolu refNumber > 0
VB-199953	VW 2024 Crashes When Resetting Hardscapes
VB-199958	It is possible to delete the "None" class. It should not be.
VB-199964	TK BUG: Subdivision (Iteration: 1) to Nurbs: Not all faces can be converted
VB-200001	Structural Member Textures Fail to Get Imported from Premium Libraries

VB-200003	Landscape area acc test: Landscape area shows little to no geometry when clipped
VB-200007	KLS: Conversion bug of hollow profile in SLVP with hidden line
VB-200008	KLS: Export IFC displaced windows when based on 3D-symbol
VB-200020	Drag-and-Drop from Resource Manager Into a Floating View Pane Fails on Mac
VB-200045	Vectorworks activate the "Turn off Unified Views" preference without user input
VB-200047	Release Title Block Border in Project Sharing Workflow fails
VB-200053	Hardscape/Site Modifier Alignment Fails in Update 2
VB-200072	29.0.1 Start Screen shown white after updating Library on start
VB-200084	Annoying warnings when user EyeDropper tool with Data Visualization
VB-200097	EntEquipmentUniversal record on staging objects
VB-200103	Localization_Cabinets.vwr: Cannot find the strings on VW
VB-200108	Localization_RailingFence.vwr: Cannot find the strings on VW
VB-200117	Localization_Undo string for Create Surface Array is shown in English
VB-200127	Door/Window Handing Widgets Fail to Show Inside Symbol Edit Mode
VB-200128	Laubwerk Plant, preselection/selection highlight doesn't work.
VB-200132	ConnectCAD: Generation failed when sharing a report
VB-200137	KLS: Attached file crashes VW 2024 Update 1
VB-200151	Slab/Roof/Roof Face Component Visibility Change Requires a Redraw in VW 2024
VB-200152	Tool Highlighting Picks-Up Faces of Invisible Components in Walls, Roofs, and Roof Faces
VB-200155	VW Crashes When Using Import Symbol (Batch) Command
VB-200157	Odd Behavior with Site Model when using Laubwerk Plant Plugin
VB-200179	CW - Spotlight - Bad Performance in users File
VB-200185	VW recalculates unedited styled objectes like they were edited
VB-200186	Data Viz in Referenced DLVPs
VB-200204	Railing: The "Mode" word is missing in the modes of the 3D Reshape tool.
VB-200209	SBE: Interactive Resizing Tool alters elevation and displays incorrect elevation value
VB-200213	Sill and Stool extensions show different in top plan Vs 3d view

VB-200218	Window sill fails to show correctly after wall is resized
VB-200228	VW forgets to use separate render mode and projection for primary views
VB-200250	DPiccolo DSTOP A tracked object is being deleted that was never removed from the drawing!
VB-200286	data visualization bug in a cut
VB-200287	Laubwerk in VW2023 SP7 and VW2024 SP1.1 give different result
VB-200301	Inventory and Equipment List:It takes a long time when you close the Inventory dialog with OK in the test file
VB-200318	Slab outline (pen line) not visible on Section Viewports.
VB-200324	Bridle parts not visible with "simple 3d parts" unchecked
VB-200333	Wall from "Arc by Radius Mode" Not Drawn Properly when Connected to other Walls
VB-200345	ConnectCAD: Circuit text size changes
VB-200358	Everyone DSTOP TempFlag Reason (54 1) is trying to be accessed without being registered.
VB-200366	Space wrong displayed if converted from VW22 to VW24
VB-200367	Texture Faces on Extruded Object in 2024 Update 1.1 do not remain after c/p or duplicating an Object
VB-200370	If two Space objects selected then units of area in the OI are too large (German version only)
VB-200373	Vectorscript Documentation Difference : BuildResource List
VB-200378	Scripting Appendix (HTML) has Dark Mode listed as pref# 6756, should be # 7013
VB-200380	Braceworks Calcculation Overview dialogue no longer has coloured warning icons
VB-200382	ConnectCAD: Circuit Scaling Issue
VB-200387	Add Surface command with test file causes objects to disappear
VB-200390	*crash in TDialogTemplate::DeleteTempDialog
VB-200396	Equip Summary for Seating Section
VB-200412	Walls - Corner to Corner Mode, is using Arc by Radius Mode, creating round walls
VB-200416	Localization_Wrong popup help for Organization>Design Layer>Opacity
VB-200418	Landscape area Acc test: Landscape area missing geometry when clipped
VB-200426	BWX : Vertical and horizontal lines of report disappear after 1 calculation report

VB-200427	Background page overwien are disappearing in BWX 2024 report window
VB-200436	Multi View Pane - Splitting a Floating View Pane Does Not Work
VB-200438	Rope and Stanchion - Text Options Text Color Not In Dark Mode - Windows ONLY
VB-200447	Windows Vectorworks29.0.x Release target and autobuilds broken by Laubwerk update
VB-200450	"Alt Select" Doesn't work intuitive when View-bar is in "Auto-hide" mode
VB-200452	Texts cut in Fence Preferences dialog of localized build
VB-200465	Styled Roof/Roof Face Component Datum Location Can be Changed in VW 2024
VB-200470	Vectorworks Crash using Braceworks Create Calculation Report in Cross Section page - MacOS ONLY
VB-200471	The WireframeRenderOptionsUserDataHandle gets a strange value for fPerspectiveFills on file open
VB-200472	Braceworks Calculation Report Light/Dark Mode Test issue Windows 10
VB-200477	Vectorworks Crash on Project file Save and Commit
VB-200486	Fillet Tool increases unwanted polyline curve width
VB-200502	Structural Member Cursor Shows Incorrectly on Mac in Column Insertion Mode
VB-200514	After changing the value of "Profile Offsets" in the "Wall Closure" dialog, the values in the dialog do not return when the Undo command is executed. (The 3D appearance returns.)
VB-200524	Room style default values
VB-200527	Spotlight Bridle not displaying at all in 3D
VB-200534	The Height of Components is Missing in Export IFC4
VB-200541	Create new menu command to open Solibri Inside Palette.
VB-200552	Default Speaker doesn't have default symbol name
VB-200554	The default speaker array cannot be moved in Equipment Summary key
VB-200576	T02349 - for the first mode (straight wall)Tool operation does not complete with a single click when clicking on a highlighted wall (indicating auto-join)
VB-200584	Project Sharing - VW Asks for Worksheet Image Checkout When Editing Fence Style
VB-200598	In Define Tag Field of Data Tag, turning off the "Insert space between value and unit" option may not have any effect.
VB-200605	Crash when editing a referenced symbol
VB-200609	Height for the Parking Space PIO to be used in Export IFC

VB-200610	Texture Face Overrides Fail to Show in Referenced Viewports in Update 2
VB-200613	Summary Key Insertion Improvements T02545 Box alignments not aligned to corners.
VB-200621	Resource Manager does not update when a resource folder is renamed by script
VB-200624	Cable Tool: Changing cable configuration crashes Vectorworks
VB-200625	Extrude texture not displayed on copy (Shaded only)
VB-200639	File wouldn't show classes in Custom Selection
VB-200643	Resource Manager does not display new Sketch Style folders when created by script
VB-200664	Spotlight Equipment Assign and Worksheets T02455 Pull down should not be left blank
VB-200680	The columns in the Inventory and Equipment List dialog are default resized after edit
VB-200684	TBB: Type field isn't saved when you create a new data field in Project Data and Sheet Data
VB-200692	Data tag: If you turn on an Align to walls/objects the data tag is rotated
VB-200712	KLS: Leader Line on Data Tag displaced
VB-200725	Custom Sash Window 2024 Shifted in Top/Plan
VB-200729	KLS: Hardscape, Next Slope in Transversale Profile does not accept colon for decimal numbers
VB-200739	Colors of "Fill Attributes" and "Pen Attributes" of a class cannot be edited directly from the Organization Dialog.
VB-200756	Face override does not work when symbol is copied between documents
VB-200791	Script Palettes created manually are different from those created by script
VB-200815	*DWG Export causes crash
VB-200819	Revit Import- Slabs have wrong Z offset
VB-200825	IToolModeBarInitProvider::AddEditTextModeGroup(const TXString& label, const TXString& value, Sint32 textWidth) does not work if the third parameter is set
VB-200830	*VW Crashes When Typing "F" After User Folder is Deleted
VB-200831	Problem with Check Spelling command
VB-200832	Unable to browse a file's resources from RM
VB-200833	Spotlight Cable Tools not making connections between devices when cables drawn in schematic mode.
VB-200834	Spotlight Cable Tools automatic patch of selected objects no longer works

VB-200843	KLS: Data Tag deleted when editing clipped surfaces
VB-200867	Landscape area hole not covering inside Site Modifier
VB-200870	DOM: Project Sharing zoom checkout Elements
VB-200872	Import of georeferenced DWG file does not work
VB-200873	QA Test new Codesign plug-in for VW2024
VB-200899	Viewport Style does not remember settings
VB-200909	ConnectCAD: Layout Room unmounts Rack Equipment Items
VB-200952	Resource Manager cannot display the local libraries correctly
VB-200955	DWG Export results in crash
VB-200957	Import of any mtextur results in crash
VB-200958	SBE: CallDefaultToolN / Insert by offset mode not working anymore
VB-200976	Project Sharing - Viewport Checkout is Required When Editing Textures that Have Displacement Mapping Enabled
VB-201024	Data Tag text format lost after converting file to 2024
VB-201034	Railing/Fence lost filling after converting file to 2024
VB-201044	KLS: Complex Lines black on export PDF
VB-201048	Extrude Along Path component edit dialog
VB-201060	*Crash in Support!VectorWorks::Catalog::CCatalogAccessor::~~CCatalogAccessor(void)
VB-201075	Drawing Label defaulting to top right of viewport
VB-201121	Project Sharing: Partly checking out an object upon entering an edit group doesn't fully clear edit context
VB-201134	Cable object not detecting trusses in this file
VB-201148	Crash (Sometimes) When Replacing Viewport Style within Test File
VB-201205	*Crashing when updating energos
VB-201324	Project Sharing: Adding a record to a Wall does not check out the wall
VB-201333	DOM: PS Multi View Issue
VB-201354	Space: Record fields have become visible
VB-201420	Door/Window Offset Insertion Distance Entry Fails in Update 3
